Professor Huang and Professor Martin,

Thank you for inviting me to today's discussion. It's very nice to see you all.

Just to help the students that are getting close to graduate and are interested in quantitative analysis in the banking industry (especially in FHLBank career), here are some opportunities that I think would be relevant to our math background based on my experience.

These openings are with other FHLBanks but they should be similar given the similarity of our business within the FHLBank system. I also attached the slides to help them understand what we do and what kind of math tools we usually use for managing our business. Please ask those who are interested to reach out, if I can help with any questions when they apply for these jobs. I'd be happy to help.

Kevin

FHLBank Dallas:

[Market Risk Intern \(myworkdayjobs.com\) \[fhlb.wd1.myworkdayjobs.com\]](https://myworkdayjobs.com/fhlb.wd1.myworkdayjobs.com)
